# MONSANTO CHEMICAL COMPANY

Anniston, Ala.

DATE February 1, 1944

TO

REFERENCE

ATTENTION Mr. F. A. Barker

SUBJECT

Attached is a file concerning a complaint on Aroclor 5460 from the Benjamin Franklin Paint & Varnish Company.

Will you please set up a test which will indicate whether or not our product is suitable for their use. I would suggest that each shipment be tested before it is shipped unless you have a lot of tested material on hand which can be shipped.

I would like you to check this test against our other tests and determine what difference there is between the material which passes the Benjamin Franklin test and that which does not pass.

Please return the attached file to Mr. Durgin when you are through with it.
