Dear Sir:

We have received your letter of June 6th on the case of Edgar L. Barefoot and were gratified that Dr. Schradin's report corroborated the findings of Dr. Wucher. We have not yet gotten a detailed report from the Pittsburgh Diagnostic Clinic which we intend to send you for your information.

We appreciate your cooperation and interest in this case and will let you know our decision as to further examination after all the reports are in.

Very truly yours,

H. W. Jones
