Diane, a couple of nits on the TRI story:

1. middle of first para: suggest you change "a salt" to "certain chemical salts" (or something like this). I'm afraid that otherwise many of our employees may read this to mean table salt is reportable....or may interpret it as a "smart ass" swipe at the TRI program.

2. last sentence first para: change "used to reducing" to "used to reduce".

Otherwise, looks good. Also: TRI is on Beth's list of work; she is now back. Do you want to transfer the baton to her on this? Please discuss with her. Thanks.
