Mr. J. E. Smith - B3NA

TO: Dr. S. A. Heininger
B3NA

F.Y.I., the attached background sheet on the Delaware River Plant has been supplied to Tom Ford in Corporate Public Relations for forwarding to the MCA. Information on the plant had been requested by the MCA as part of their program to supply Russell Train of the EPA with a list of chemical plants he may wish to visit during a tour of the East Coast.

The information used in this background sheet was reviewed earlier today with J. E. Smith.

G. F. Barton
