W. G. KRUMMRICH STUDY

SEP 25 1986

September 19, 1986

Terry Leet
Epidemiologist
Monsanto World Headquarters
Bldg. G
800 N. Lindbergh
St. Louis, MO 63167

Dear Leet:

Enclosed is a list of individuals for whom we need the worker records.

Also enclosed is a hard copy of the frequencies for the following variables from the work record computer tapes you had sent us: department status, department code, department division, job class, and time status. Separate copies were prepared, one for the "exposed" and one for the "non exposed" group.

In addition, we have printed frequencies for these two groups for a variable which preserves the department-division configuration.

Please review these outputs and call me so that we may discuss them further.

Sincerely,

Denise M Oleske

Dear Terry:

Enclosed is a hard copy list of individuals generated from your "non-exposed" workers tape that I would like you to re-review concerning their eligibility for study.

Thank you.

Sincerely,

Denise M. Oleske
