12/11/93 Re

REDACTED

Spoke to adjuster Addie Carter Lester - CIGNA (302) 479-6226 + Doreen - atty Lee Graham Karasa (201) 740-1530. Says Ct's attorney advised that Ct has cancer + has 2 medical reports establishing cancer to work exposure (40 yrs) (Benzyne)

Advised that MD's assuming Ct exposed to benzyne cause its known to be used in the industry but there has been no documentation establishing Ct was exposed to benzyne.

In spite of this argument, Ct will likely die from cancer + thus we have exposure for TT benefits until death + death benefits to wife if we go to trial + lose. Also if we go to trial we'd need to conduct a major search to rule out Ct's exposure to benzyne etc

Says Ct wants 80K to settle. OK'd 65K to settle all 3 claims. Advised Addie if claim is settled payment should be made in the 10/85 claim
