Re: WORKS INDUSTRIAL HYGIENE COMMITTEE

The present makeup of your Works Industrial Hygiene Committee as listed in your letter of January 22, 1963 looks good and should provide an effective way to continue handling any industrial hygiene problems that may arise.

RE: WORKS INDUSTRIAL HYGIENE PROGRAM

In my letter of January 22, 1963, I indicated that J. E. Hatch, as Chairman of the Works Industrial Hygiene Committee, would attend the training meeting scheduled for the week of February 11th, in Pittsburgh.

During a 'phone conversation with Mr. Tom Bonney it became evident that the make-up of the training session is such as to require the presence of the chief leg-man to be in attendance rather than the Committee Chairman.

Consequently Mr. J. H. Lowry will represent the Davenport Works at this training session rather than Mr. Hatch.
