**PULSATION
A PROBLEM?**

Install an
IMO

With an IMO Pump delivery is not interrupted by the periodic strokes of a piston or the opening and closing of valves and ports. The turning of the rotors in an IMO forces the fluid from suction to discharge in a continuous, uniform flow.

IMO pumps can be furnished for practically any capacity and pressure required for oil, hydraulic-control fluids, other liquids.

Send for Bulletin 1-145P.

CONDENSATE RETURN at its BEST

Capacities
to 150 G. P. M.
(Both Horizontal
and Vertical)

APCO Horizontal Simplex Condensate Return Unit

These units are available in simplex and duplex types—designed for the automatic return to high and low pressure boilers of the hot water condensation from radiators, coils, etc. Catalogued in sizes ranging from 2,000 to 100,000 sq. ft. equiv. radiation. Larger sizes available.

APCO TURBINE-TYPE PUMPS

Apcos are ideal for the above service or any small capacity, high head duty. The one moving part, the impeller, is free running without metal-to-metal contact. Designed for high temperature water and liquids. Capacity remains practically constant against drastic head pressure variations.

Canadian subsidiary, Canadian Niagara Power Co., Ltd. W. Donald Bracken continues as vice-president and general superintendent of the Canadian company's Niagara Falls district.

B F Hampshire has been appointed general manager of Montaup Electric Co., Somerset, Mass., succeeding George U. Parks. Parks has joined the Boston Edison Co.

Samuel E. Cooper has been named vice-president of Omaha public power district and Fay E. Smith has been promoted to executive manager. They were named after power district board of directors received resignations of Charles D. Saunders as vice-president and director and Roy Page as executive manager.

Detroit Edison Co. announces that Harry C. Hall, superintendent of underground lines, has retired. Lemore W. Clark has been appointed superintendent to succeed him and Frank C. Marchant has been made assistant superintendent.

Dr. Frank Dana Carvin has been named head of dept. of mechanical engineering at Illinois Institute of Technology. James C. Peebles, dean of engineering, has retired. Dr. John T. Rettaliata has become dean.

New York University College of Engineering has announced that Dr. Glen M. Cox has accepted post of professor of hydraulics and mechanics.

Edward D. Emerson has been made assistant professor of mechanical engineering at University of Massachusetts, Amherst.

Bureau of Mines has named William Fene as assistant chief of health and safety division and Marling J. Ankeny as chief of mine inspection branch.

Appointments of members of various standing committees of Stoker Manufacturers Assn. for ensuing year were announced recently: (1) Joseph C. Beard, Chicago, assistant manager, stoker div. of Illinois Iron and Bolt Co., has been named chairman of the association's engineering and research committee. (2) E. W. Oeffinger, New Albany, Ind., chief engineer, Anchor div., Scoville & Terstege Co., has been made vice chairman. (3) Walter Sormano, Mendota, Ill., sales manager, Conco Engrg. Works, has been made chairman of trade relations committee, which has duty and responsibility of conferring with representatives of allied and other industries on subjects and problems of mutual interest. (4) Frank H. Indianapolis, Ind., has been named chairman of a special 3-man steering committee on membership affairs.

Stone & Webster Engrg. Corp. has elected E. H. Krieg consulting engineer in Boston office.

Sam Tour & Co., engineers, metallurgical consultants, announces appointment of Howard Kapner to be in charge of the new glass section. Kapner will be at 44 Trinity Pl., New York, N. Y.

YES! Tycol Aturbrio Turbine Oils perform better... BETTER... BETTER

Tycol Aturbrio Turbine Oils perform better because:

... Tycol Aturbrio Oils are "double inhibited" to resist oxidation and prevent rust.

... Tycol Aturbrio Oils provide maximum resistance to emulsification... permit continuous operation without sludge formation.

... Tycol Aturbrio Oils have shrunk lubrication costs in hundreds of plants... performing superbly for years without a change.

Complete and detailed information on Tycol Aturbrio Turbine Oils is available from your nearest Tide Water Associated Office. Call or write today.
