D. K. TIPPEY

Thanks Dave to you and Matt McCauley for keeping the wary eye out for Aroclor imports. I appreciated your report.

We have had numerous calls from the U.S. offices of foreign producers that some of our plasticizer customers and other customers are attempting to buy material from them and they, in turn, have called us ascertaining our policies.

It is still not inconceivable that there will be a weakening somewhere along the line and some imports will be made. Therefore, we would appreciate your continuing to survey this on a regular basis certainly for the next six months.

Thanks.

H. S. BERGEN
