Subject: Asbestos Non-Production Materials Utilization Survey

Information to identify asbestos materials and products and their usage and applications has been requested by Corporate Industrial Hygiene and Toxicology Department. Recent government statements indicate an intent to control the use of asbestos in the future.

Your assistance is requested to complete the attached survey forms for your plant and return them to this office on or before May 23, 1980. Instructions for filling out the forms are included in the attached April 29, 1980 letter from Messrs. A. G. Folger and P. F. Guy. Contact Bob Hric at 525-3040 should any questions arise.
