Meeting with Dr. Crolley

Peter Kostic, R. E. Schneider, O. F. Stewart

We are assembling the information requested in the letter of J. Lynch of July 10, 1968. This will be ready by August 24.

I will bring summaries of information we have on the X-ray program. I am not certain whether 1969 results will be received by then. We have completed the X-rays except for those on vacation, etc. I will see the radiologist this coming week and see whether it will be possible to have the interpretations by then.

There will be some gaps in the records requested by Lynch. We have no information on people who worked for Zonolite Company prior to 1943, other than that they were hired. It is not possible to tell date of termination or length of service. We don't have any records. Also it is not possible to get any work histories prior to 1948. We can get the rest of the information. As you know it will take quite a bit of doing, however.

Currently I am planning on arriving in Cambridge on Monday, August 25.

I am assuming you will arrange transportation from Cambridge to Cincinnati.
