PCB Correspondence

April 24, 1972

Mr. Ben Miyares
Editor
Food & Drug Packaging
777 Third Avenue
New York, N.Y. 10017

Dear Ben;

Attached is a statement which may be helpful to you in clarifying the relationship between PCBs and plastic packaging, as mentioned in your April 13 issue.

This position paper, which is the one we discussed on the phone earlier today, was circulated several weeks ago to our packaging customers.

If you have further questions, give me a call. Thanks for your consideration.

Sincerely,

Jim Rollins
Public Relations Manager
Fabricated Products Division
(314)694-2893
