materials analysis.

Q If I can stop you right there, Mr. Anderson, what is your college degree in?

A Mechanical engineering.

Q Okay. Then you went on, I gather, afterwards to go to the Chrysler Institute; is that right?

A That is correct.

Q As I understand your testimony, that was a combined work-education program; is that right?

A Yes. You had classes in the afternoon or work assignment during the day, so that probably it was, I think, probably 60 percent work and 40 percent class.

Q What was the subject matter of the 40 percent class, do you recall?

A Well, the purpose was to provide education in automotive engineering.

Q So those were automotive engineering classes again?

A Yes, those were all automotive engineering
