Northbrook, Illinois 60062

Dear Otis:

Enclosed is a pre-publication copy of an article on the effects of PCB's on pheasant reproduction, etc.

I haven't calculated their capsulated dosse of 12.5, 25 and 50 milligrams per week to a parts per million basis for whatever comparison we might make for the work you did on the leghorns.

Perhaps we can discuss this the next time we get together.

Best personal regards.

Sincerely,

Elmer P. Wheeler
Manager, Environmental Health
