Mr. Jim Poettgen
Helena Corporation
P O Box 251
Helena, Alabama 35080

Dear Jim,

As a result of our recent meeting, we promised several pieces of literature. Attached you will find the literature you requested.

Enclosed is a copy of the following:

1. EPA, Hazardous Waste Management facilities list for the U.S.

2. A discussion and list of respirators for use with PCB's and HCl gas.

3. Literature on a filtering system for salvaging Inerteen 70/30.

The substitute for your UHU Hart Glue is still under evaluation. I will forward this information to you as soon as it is available.

Jim, thank you for setting up the very productive meeting we had. Let me know if we can be of any further service.

Regards,

Carl L. Clay
