Oakland, California 94607

Dear Mr. Wong:

We have searched our files and were unable to locate an employment file for any of the former and deceased employees you requested an update on. All worksheets are returned to you herewith since, without an employment file, we can not update or verify the worksheets.

We have concluded that following the sale of the Firestone complex here at Pottstown, all employment and medical records for retired and/or deceased employees were sent to Firestone in Akron, Ohio. Since all of the employees listed in the attached worksheets are former Firestone employees who died prior to the sale date in December 1980, their records would be with Firestone. I believe you were advised of this in our 1982 update response.

Please indicate in your future status reports that the 57 worksheets are Firestone's responsibility and not Occidental's.

Sincerely,

G. D. Lloyd
Manager, Safety
