PYDRAUL A-200
MANUFACTURE AT W. G. KRUMRICH

Messrs.

M. L. Miller - G.O.
P. E. Brisler - W.G.K.
J. A. Mullendore - W.G.
H. L. Sample - G.O.
H. J. Day/B. Petty - G
H. B. Nobus - G.O.

Mr. W. R. Taffee
W. G. Krumrich Plant

PYDRAUL - FIVE
246-2T

This is to confirm that you are to proceed with the minor alteration project to permit the production of Pydraul A-200 in the Pyranol mixing facilities at the W. G. Krumrich Plant.

When the alterations are approaching completion, please advise the production planning department of the date you will be ready for operations. Then Mr. Petty and Mr. Day will cooperate to phase out the J. F. Quency Plant and start operations at W. G. Krumrich without confusion and inventory control problems.
