Compliance with OSHA 29CFR 1910.134

To be in compliance with OSHA 29CFR 1910.134, the Tech Center policy states that all employees wearing a respirator will be fit tested and trained in the proper use of this equipment, and be clean shaven in the facial areas forming a seal with the respirator.

If you have employees who may be asked to wear a respirator, please insure that they have been fit tested and/or clean shaven.

If I can be of help, please contact me.
