STARK MILL
MANAGER

Mr. A. C. Link
Plant Manager
United States Rubber Company
Stark Mills
Hogansville, Georgia

Dear Mr. Link:

We wish to acknowledge receipt of the dust count data prepared by Mr. Guy. We have been absorbed in the past week studying this data. Following this preliminary analysis, it appears desirable to us and advantageous to you to convert this information into quantitative exposures by occupation and individual worker. The data so analyzed will give better understanding of past exposure and some clue as to future expectations for additional cases of asbestosis. This analysis is unfortunately time consuming and will involve an additional charge. This will be calculated on the basis of $75 per day of work and will require not more than eight days. The report should be finished and in your hands within the next two weeks.

Unless we hear from you to the contrary we shall assume that this meets with your approval and we shall proceed as outlined.

I wish to thank you for the courtesies you extended to our staff. They have asked me to send their regards.

Sincerely yours,

A. J. Lanza, M.D.
Chairman
