Asbestos Gloves

Date
June 18, 1979

This letter to cover one customer and one subject only.

Wednesday, June 13th, I was contacted by G. Evared about the use of asbestos gloves in the Tube Shop. According to Gary, 72 pair of asbestos gloves were found stored in an area which were purchases as part of year-end purchasing in 1977. After discussing the matter with K.C. Kochhar and based upon annual usuage for the shop, it was decided that in light of the total effort for removing asbestos from the Plant, that neither the Safety Office nor Engineering would give approval for the use of these gloves. It was suggested that the gloves be reutrned to the vendor for credit toward the purchase of gloves of lesser expense and not posing any question relative to potential health hazard. Please advise: what was the Shop's decision on this subject? Thank you.

Larry G. Johnson
