SPECIFICATION EP-346-L

VALVE MAINTENANCE
Contract C-15-059-78
October 27, 1978

1. CONTRACTOR shall furnish all labor and tools necessary to repair approximately 50 valves of various sizes and test and repair approximately 50 relief valves of various sizes according to repair lists provided.

2. CONTRACTOR shall remove and replace these valves in their proper locations as necessary to do the work. In the case of backwelded valves that require removal, COMPANY will provide a welder to cut out and reweld.

3. CONTRACTOR shall properly fill out a repair sheet, form TEMP 562-1, for all relief valves worked on.

4. CONTRACTOR shall comply with all rules and regulations set forth in the attached Refinery Instruction 1404, "General Instructions to Contractors Working Within the Refinery".

5. COMPANY will furnish CONTRACTOR use of a 9" lathe if necessary to do the work. If a larger lathe is required, COMPANY will furnish lathe and operator.
