Dr. Joseph E. Shelby
54 West Fayette
Uniontown, Pa. 15401

Dear Dr. Shelby:

Thank you for taking time from your busy schedule to meet with me Tuesday. I am very pleased that you have agreed to administer our OSHA required physical examinations for our Mt. Braddock Works.

I am enclosing a copy of the medical examination provisions of the Occupational Safety and Health Act which establishes the requirement for these examinations. Enclosed also you will find a sample copy of the type of final report required for our files. Next week I will send you a proposed history form designed to elicit respiratory disease symptomology. It might save some time to have local plant personnel complete the form prior to the examination. Coordination of that and scheduling should be done between your office and Tom Whelan, Plant Superintendent of the Mt. Braddock Works.

As I mentioned Tuesday, Dr. George W. Wright, 1460 South Marion Parkway, Room 2056, Denver, Colorado 80209, will be available for consultation for any aspect of these medical examinations, including physical and radiological interpretations. His expenses naturally will be borne by the Company and I encourage you to feel free to utilize his expertise in this area should the occasion arise.

Thank you again for your cooperation.

Very truly yours,

David S. Woodbury
Industrial Relations Manager
