January 21, 1929.

Ethyl Gasoline Corporation
25 Broadway
New York, N. Y.

Attention: Mr. E. W. Webb.

Gentlemen:

Please note the attached letter received from the Jenney Manufacturing Company of Boston which we presume you will want to go into immediately. You can depend upon the co-operation of our customer and we will do everything we can to help in the investigation.

Yours very truly,

WALBURN PETROLEUM COMPANY, INC.

January 19th, 1929.

Walburn Petroleum Company

Gentlemen:

This is to advise you that there has been a claim entered against us through the Industrial Accident Board of the State of Massachusetts by the widow of one of our chauffeurs who has just died of leukaemia which she attributes, by authority of the hospital doctors, to lead poisoning. Will you kindly pass this information along to the Ethyl Gasoline Corporation who, no doubt, will be interested to investigate? The chauffeur's name was William J. Logue who died in the Boston City Hospital, December 25, 1928.

*rec. Secretary
Mr. J. Logue*

Walter F. Costello was the inspector investigating for the Industrial Accident Board.

Yours very truly,

JENNEY MANUFACTURING COMPANY

C. S. Jenney, Vice Pres. & Gen. Mgr.
