RE: Activity Report
August, 1985

DATE: September 5, 1985

I. SAFETY

There were no Lost Time or Restricted Duty injuries in the Production or Warehouse Departments during August.

There had been a malfunction on our plant generator on September 2. A portable generator was obtained while our generator was being repaired. This afforded us the time to repair our generator and run the plant in a safe way.

II. STATISTICS

Attachment I	Production Summary
Attachment II	Production Loss Report
Attachment V	Overtime Analysis

III. PERSONNEL

- 1) Eight ICWU employees were given reprimands in August. These offenses included one-3 day suspension for absenteeism; two written-1 for absenteeism and 1 for leaving without proper relief; six verbals-2 for the same employee not attending shift safety meeting and absenteeism; 4 for not attending shift safety meeting.
- 2) David Gould a relief operator has given notice that he will be leaving our employment as of September 13, 1985.

IV. COSTS

- 1) Variable conversion cost estimate for August and September favorable due to above budget production volume, use of well water vs. refrigerated water, and operations during warm weather months.
- 2) Fixed cost estimate for August favorably impacted by \$35M rebate resulting from property tax revaluation.

V. MAJOR PROJECTS AND ON-GOING PROGRAMS

Nothing to report.

VI. ENVIRONMENTAL

Reactor Bldg. VCM level averaged 0.1 ppm in August
Reactor vapor samples averaged 1542 ppm in August
Stripped slurry samples averaged 139 ppm in August

VII. OPPORTUNITIES

Nothing to report.

VIII. VULNERABILITIES

Nothing to report.

IX. INDUSTRY TREND

Nothing to report.

X. GENERAL COMMENTS

Nothing to report.
