Mr. Milton Schechter
U.S. Department of Agriculture
Pesticide Chemicals Research Branch
Agricultural Research Center
Beltsville, Maryland 20705

Dear Mr. Schechter:

It has come to my attention through Mr. W. Papageorge that you are interested in receiving a methodology paper on polychlorinated biphenyls from Monsanto Company. It is our understanding that this would be used by you and others on a panel at the 2nd International Conference on Pesticides in Israel early in 1971.

I am enclosing a methodology package which represents our best know-how for polychlorinated biphenyl analyses at Monsanto. We have reviewed our more recent work and conclude that we do not have sufficient additional techniques to justify writing new methodology procedures. Accordingly, we hope that this information will be of some value to you in lieu of a more formal, specific paper for your meeting.

Please let me know if we can be of further assistance. Best wishes for your coming trip and meeting.

Sincerely,

REK

Robert E. Keller
