Are You a BLOND?

Color

Here's flattery indeed for a blonde!

DUSTY PASTELS
SOFT SHADES
DEEP SHADES

The deep shades frame you, make your hair seem brighter and your skin lighter. The soft shades accent you, make you more vivid. The dusty pastels give you a personalized background.

Your color horoscope . . . follow it when buying clothes or decorating your home. **Fuller paints (Fullcoat for walls and Fullerglo for woodwork and furniture) offer you a selection of colors that will compliment or accent—as desired.**
