VICTOCOR 300

February 27, 1968

R. T. DeFilippis

Confirming our discussion regarding Victocor 300 as a product line, please prepare a monthly status report on each and every open order for Victocor 300 material. In the early stages of the development of this product line, it is important that we give it close and careful attention.

When we are current with Caterpillar deliveries, please arrange to notify Andy Poesehl and John Feldmann of this situation.
