Dear Chris:

I speak for both Jack Molloy and myself, when I say we appreciate the time and effort you put in to present fair and balanced coverage of the WGK landfill story.

I did want to point out one inaccuracy for your information. It was mentioned that the landfill was 150 feet deep. This would be deeper than bedrock. The actual depth of the landfill is 20 feet.

Again, I enjoyed meeting and working with you.

Sincerely,

Donna M. Vandiver
