H. M. District Inspector of Factories,
973 Spring Bank West,
Hull.

Wednesday,
19th April
1 9 4 4

Dear Sir,

Newalls Insulation Co. Limited
Spraying Asbestos

Thank you for your letter of 17th April received this morning, stating that you have been directed to inform us that Mark IV type Respirators should be supplied to the Plasterers working near or in the same room in which the asbestos spraying is being carried on.

As you do not reply to any of the points mentioned in my letter to you of 31st March I am left rather in the dark, and shall be glad, therefore, if you will let me know by what Statutory authority the request contained in your letter is made, having regard to the fact that the Asbestosis Regulations do not apply to this Spray Process.

Yours faithfully,
for TURNER & NEWALL LIMITED,

Secretary.
