JEWELRY FACTORIES

Jessop's is the only Jewelry store in San Diego that has a first-class modern up-to-date manufacturing plant, and you and your friends are invited to see it. No other Jewelry store in this city ever invited the public to see theirs, as we are doing, and for special reasons, get to see others and see the contrast; ours is real and not built on paper. Ours stands for economy, efficiency and competency. An expert designer and goldsmith in charge. First-class work, at reasonable prices, but always the best.

...on the stock exchange today while at any clear reason, although the theories current for the decline took a wide range over the whole of financial field. on the part of the board room traders, who had the market to themselves. The simple explanation seems to be that these professional operators who have been buying and holding back stocks to a moderate extent during the week, find themselves with little company and feel that they have reached the limits of their courage in speculative commitments. The process of selling to take profits finds as narrow a participation in the market as that during the advance. Prices consequently recede easily and in pretty close proportion to the advance on the same volume of dealings.
