Subject: Re: Draft modeling report

Mark,

Thanks so much for your great work. I confess I will need a little time to digest your report; my attention has been diverted for the past week toward one of our sites under consent order. I'll come up for air tomorrow afternoon and can think a little more clearly about your results.

Regarding a meeting: let me coordinate with Debbie Mulrooney (our air dispersion modeler) and see what matches her schedule and mine....I'll be in touch soon.

Thanks again, Mark.

Subject: Draft modeling report

Robert, Cathie and Andrew

Here is the draft report. Let me know when you would like to discuss the results.

Mark

Modeling of Leaching Potential.
