Dear Capco Customer:

During the past several weeks, we have experienced a very strong demand for Capco A/C pipe and, from all indications, this demand will continue throughout the balance of 1988.

We are currently offering six to eight weeks delivery, depending on the size and class of pipe required. For this reason, I am writing to request and advise that you coordinate delivery schedules with your owners/customers accordingly. With your cooperation, we will continue to meet our commitments.

We appreciate your understanding and cooperation and look forward to furnishing your A/C pipe requirements.

Yours very truly,

William R. Ferrell
Vice President - Sales
