December 20, 1963

Dr. Joseph C. Calandra
Industrial Bio-Test Laboratories, Inc.
[illegible]
Northbrook, Illinois 60062

Dear Joe:

This letter authorizes the initiation of two of the proposed [illegible] studies as follows:

Project No. [illegible] - Aroclor I-Wool - Gross Toxicity

Ia - Aroclor 1242
Ib - Aroclor [illegible]
Ic - [illegible]
Id - [illegible]
Ie - [illegible]
If - [illegible]
Ig - Chlorinated naphthalene

The protocol for these studies is to be consistent with our discussions when you were here on 12. Could you I would appreciate receiving a note from you outlining what you plan to do with an approximate cost.

Project No. [illegible] - Aroclor II - 30 Day Rat Tissue Study

IIa - Aroclor 1242
IIb - Aroclor [illegible]
IIc - Aroclor [illegible]
IId - Aroclor 5460
IIe - Toxaphene
IIf - [illegible]
IIg - Chlorinated naphthalene

MONS 091216

These studies are to be carried out as proposed in your protocol [illegible] with the letter of Mr. [illegible] dated September 9, 1968. That letter indicates a cost of [illegible] for [illegible] of the Aroclors, [illegible] and [illegible]. Further it indicates that additional [illegible] [illegible] for [illegible] [illegible]. Since we are [illegible] [illegible], [illegible] and chlorinated naphthalene I assume that the [illegible] study will cost approximately ($[illegible]).

We are obtaining samples of several chlorinated naphthalenes and will provide you the material to be investigated.

Do you have a readily available source of [illegible] or shall I get this for you through our Agricultural Chemical Group?

I have enclosed a copy of my summary of our meeting when you were down here (as you and I discussed it). There is also a copy of Bill Richard's version.

I hope you have liked the fly bug and will have a happy holiday.

Sincerely,

Elmer P. Wheeler
Manager, Environmental Health
