Paint Insurance

If the paint on your own house is not cracked, peeled or blistered, there are enough examples of faulty paint in your neighborhood to show that "What paint?" and "What painter?" are important questions to the property owner.

Paint satisfaction is insured by having a house painted continuously with Carter White Lead and pure linseed oil by an experienced painter—then such a condition as is shown in this photograph can never develop.

CARTER Strictly Pure **White Lead**

"The Lead with the Spread"

is the strictly pure white lead of our forefathers, only finer—which makes it cover better and go farther—and such a clear, pure white that it has established a new standard of whiteness for white paint and given new beauty to delicate tints, new brilliancy to colors.

Pure Carter White Lead and linseed oil paint never cracks or peels, but wears gradually, as paint should, and after years of service is ready for re-painting without burning or scraping.

Ask your painter or paint dealer to show you "The Paint Beautiful" portfolio of color schemes—eighteen of the latest ideas in house painting.

"Pure Paint," an authoritative text-book on house-painting, with six color plates from the portfolio, sent free to property owners. Write for it.
