DART DRUG

LATEX HOUSE PAINT

An ideal water thinned house paint for wood and masonry. Dries dust free in 30 minutes. Its self cleaning properties maintain a freshly painted appearance. No primer is required for soundly painted surfaces. DO NOT TINT.

GLD006247

DIRECTIONS

PREPARATION

- Clean surface thoroughly. Remove dirt, rust, loose paint, blisters and other foreign matter. Remove mildew by washing with household bleach diluted one quart to a gallon of water and detergent. Rinse thoroughly.
- Patch all cracks, nail holes, and open joints. Spot prime with house paint primer.
- Prime unpainted wood/metal/masonry with appropriate primers.

APPLICATION

- Mix thoroughly before using by stirring with lifting motion.
- Apply generously with brush or roller, using overlapping strokes.
- May be re-coated after overnight drying.
- If thinning is required, use water only.

GENERAL

- Equipment must be washed immediately after use with soapy water.
- Covers up to 400 square feet per gallon over most surfaces.
- Do not apply if temperature drops below 50°F. or if heavy dew is on surface.
