

November 5, 1976

Mr. Cecil P. Cunningham
Vice President
Monsanto Company Inc.
800 N. Lindbergh Blvd.
St. Louis, Mo. 63166

Dear Mr. Cunningham:

I am a chemistry major at Muskingum College where I am conducting an Honors Research Project on the degradation and environmental analysis of polychlorinated biphenyls (PCB's).

If samples are available, I would greatly appreciate receiving 10g.-100g. of standard PCB's such as Aroclor 1242, 1254, and 1268. I would also welcome any literature you have on PCB's.

Sincerely yours,

Jeffrey A. Russell
