W. S. Clark-WCLAR

of [redacted]
Construction Division

L. J. Berlik

Steve Cyga called this morning to ask for more information about the withdrawal of the Aroclor 1200 series. I reminded him that you had discussed this with him but he did not recall much of the discussion. I went over again the situation and that all except Aroclor 1221 would be withdrawn.

He will do some checking to see what their needs on 1248 and 1260 might be and then send us an order covering those two products as well as the major one, Aroclor 1254.

He's thinking in terms of 225 to 250 drums to cover them until they can locate replacement products.

This is for your information.

It is my understanding that a Mr Zisson, the purchasing agent for W.R. Grace out of Boston, has already arranged for all of W.R. Graces' inventory needs (for the Construction Products Division). If this is not the case, please let me know. You may want to talk to John Gannon.
