MONSANTO COMPANY
Organic Chemical Div.
800 N. Lindberg Blvd.
St, Louis, Missouri 63166
Attn. Mr. C. Panton

Dear Sir:

During our telephone conversation on September 3, 1969 you expressed an interest in the Concora Glulab apparatus and requested for information about it which I sent you.

I would be interested to know the degree of your interest in the above mentioned apparatus at the present time.

The December 1969 issue of the "Tappi" Magazine contained an atricle about the Concora Glulab. In case you overlooked it I am enclosing a copy.

Yours very truly

Ilijus Kotov
President

P.S. The stated quotations are firm until May 1, 1970

D.W. Plse reply
stating that we have no interest in
purchasing the Glulab at this time
but we have the information on file
and will definitely contact them
should need arise.
