Our Position:

Site R and the "Dog-leg" Should Not Be Included in the IEPA's Scoring Package for Superfund Listing

STLCOPCB4034683

Progress is Being Made -

- Consent Decree Signed, 1991
- $ 2 M + RI/FS is Underway
- Using CERCLA Guidance Documents
- IEPA Costs Are Being Reimbursed
- Not an Orphan
- IEPA Would Lose Control

DSW 134726

STLCOPCB4034684

Listing Would Delay Remedial Actions

- Start Over With The RI/FS ??
- Why Continue With The Consent Decree RI/FS Work Plan ?
- The "Dog-Leg" Area Could Be Grouped With The Rest of Site Q
- Progress Could Be Bogged-Down With Superfund Re-authorization

DSW 134727

Site R and the "Dog-leg" are Logically Separate

- Site is Different-
  - » Chemically
    Groundwater
    Geographically
    PRPs
