Re: Pirelli Cell

Dear Ralph:

I would like to convey Warren's and my thanks for the hospitality that you have shown us.

I have an old write up on the Perilli cell and have appended it to this letter.

Dr. T.K. Sloat has apparently stressed the Aroclor 1242 in the cell at 140 volts min. for a short period of time. He claims there was no significant amount of gas produced.

Thank you once again.

Yours truly,

Earl Sillett
