PLAINTIFF'S EXHIBIT
WRG-1678

The following is to correct my memo of June 26th. John Huxley has subsequently advised that the MK-4 bags in inventory bear both the statement "Asbestos Free" and the 40 C.F.R. compliance statement. MK-4 inventories are as follows:

Los Angeles	75,400
Newark	63,000
Santa Ana	79,000
Portland	40,000
Omaha	27,000
St. Louis	31,000

Omaha and St. Louis use the MK-4 bag with a label for MK-5. When the MK-4 supplies are exhausted, they will not be replaced. As per our telephone discussion of this morning, John Huxley and Pat Walsh have been advised to use existing MK-4 bag inventories and replace with bags omitting the "Asbestos Free" statement.
