SUBJECT ANALYSES OF AROCLOR MANUFACTURED AT ANNISTON RESHIPPED FROM PLANT "B"

Plant B receives from Anniston, Lots of Aroclors 5460 and 4465 for re-shipment. We do not analyze these at Plant B. Some times we are requested to furnish the consignee and analysis of the material shipped. At present I do not believe we are receiving from you, analysis of these materials.

I would therefore like to request that you send me a copy of the analysis of the material which is shipped to Plant B in order that I may keep it in our laboratory file to facilitate distribution of this information when requested.
