MCC Plant Communicators

The Carondelet plant has just produced an excellent color brochure of their plant covering plant history, products, safety and environment, community affairs, and people. The brochure also addresses some concerns that have been expressed by neighbors. The photography was done by a plant employee, and the writing was a combination of efforts between Jerry Bishop, his staff, and me, making the whole project reasonably priced.

Jerry plans to use the brochure in a number of ways, one of the more innovative is as a "walk around" tool this summer, when he and his staff literally walk through the neighborhood meeting people.

If you would like a copy, please let me know.

Also -- I'd like to add my encouragement to the Monsanto Fund's volunteer award program. If you would like any help, please let me know. You may also want to contact Paul Bureau or Phyllis Grondalski at Indian Orchard. In 1985, they put together a volunteer salute that was extremely successful.
