Norbert's comments on your further request for information about the project should be self explanatory. I see nothing that I can add to it. I have sent a copy of Norbert's summary to Cyril Lakin and asked if he will re-review his overrun request and hopefully identify wherein any difference lies. They both should have been based on the same prices and volumes coming from Don Cameron. It may simply be the method of handling £ to $ conversions.

When Cyril's re-look is finished we will forward you a copy.

Best regards and Merry Xmas,

Bill

W.B. Hicks.
