December 14, 1970

Mr. Paul G. Maco, General Manager
Insulation Products Division
Asbestospray Corporation
605 Broad Street
Newark, New Jersey 07102

Dear Mr. Maco:

Have you had time, as yet, to talk with Mr. Levine about any newer information than that covered in the item on page 14 of the August 1970 issue of ASBESTOS?

If so and it is possible to forward us a copy of the revised Code of Work Practices as of August 1970, we would sincerely appreciate same for our files.

I suppose you read the article in the December 8th edition of "The Wall Street Journal" concerning building practices. Has there been any reaction on the part of the Sprayed Mineral Fiber Manufacturers Association to the paragraph that makes specific mention of spraying steel girders with asbestos? I would appreciate having your comments to this particular paragraph -- just for our own information, of course, and not for publication in ASBESTOS.

We look forward to being kept abreast of any happenings in this area, if only to be completely aware of events and to maintain accurate and current reference files.

Thank you and we hope to hear from you from time to time.

Best Wishes for the coming Holiday Season and a Happy, Prosperous and Progressive New Year!

Very truly yours,

ASBESTOS
