Cleveland, Ohio 44115

Attention: Sales Department

Gentlemen:

In the past two months, we have entered two orders totalling 48,000 pounds of 7D4 LFP Chrysotile Asbestos. It appears now that our future usage will average 20,000 to 25,000 pounds of this material per month.

Based on this increased usage, may we have your quotation covering an estimated annual tonnage of 300,000 pounds to be released in monthly increments of truckload or carload quantity?

Yours sincerely,

Phone 9/20
