A Yes.

Q Would Mr. Vandergucht do that, pack the doors or be around?

A He would be around, yes.

Q Did you also put up some United States Gypsum Fire Code at Sinai Hospital?

A No.

Q You mentioned you knew Mr. Vandergucht, but am I correct, you didn't work on the same crew that he worked on?

A No, there were two different crews, finish crew and base coat crew.

We were all together and they would have been two or three days maybe ahead of us, but we would be on the same floors periodically.

Q Is it fair to say you might have worked with him one or two days per week?

A Yes.

Q Maybe an hour at a time?

A Well, I wasn't working directly with him, he would be ahead of me.
