REFERENCE

TO : G. ROBERT SIDO

Confirming our telephone conversation this morning, the following statement should be added to the labels on products containing PCB's.

> "This product contains polychlorinated biphenyls, which some studies have shown may be an environmental contaminant. Extreme care should be taken to prevent any entry into the environment through spills, leakage, use, disposal, vaporization or otherwise."

The above statement was given to me by Phocian Park.

Thank you.

Mary Schires
