Please use a separate sheet for each subject treated

Dear Doug:

Further to our previous conversations of the subject of going ASBESTOS FREE it is absolutely necessary now that we be out of asbestos by April 1.

Based on earlier information provided, I'm assuming we will have no difficulty in switching over to non-asbestos production from that date forward on all the remaining items.

If you anticipate any problems on this at all, please let me know now and you might have Jeanette give me an estimate of what label, containers, etc. stocks we will have on hand to dispose of with asbestos markings as of that date.

The above all refers, of course, to all products except roof coatings. Thanks.

Cordially yours,

Julius Nemeth
