Great. Thank you. Cal Dooley, our president and CEO of the American chemistry council will be introducing and helping manage the conversation. That work?

Hey Bryan! See below. Can you please remind me who will be introducing the Administrator/ leading the conversation?

- You recently issued a directive to eliminate conflicts of interest among those serving on your Science Advisory Board, Board of Scientific Councilors and Clean Air Advisory Committee. Can you tell us more about that initiative?
- The media often utilizes narrow definitions of "environmentalism" and "environmentalist." How do you define true environmentalism?
- Are you working to include a streamlined chemical approval process at EPA?
- What has it been like to work with President Trump?
- What are some of your upcoming regulatory action items?
